

Use Case 21: Delete Cake Type
Sequence Diagram

Main Flow:

- 1. Karoline navigates to her site
- 2. Karoline logs into her account.
- 3. Karoline accesses the admin section of her website (i.e. the Content Management System (CMS)).
- 4. Karoline accesses the list of existing cake types using the CMS.
- 5. Karoline selects the cake type she wishes to delete.
- 6. Karoline clicks the delete button.
- 7. The CMS sends the message of a deletion to the database.
- 8. The database receives the message.
- 9. The database deletes the selected cake type information from the related table.
- 10. The use case ends when the CMS receives data from the database that no longer includes the deleted cake type information.
