Use Case 24: Delete Dessert Flavor
Sequence Diagram

Main Flow:

1.   Karoline navigates to her site

2.   Karoline logs into her account.

3.   Karoline accesses the admin section of her website (i.e. the Content Management System (CMS)).

4.   Karoline accesses the list of existing dessert flavor options using the CMS.

5.   Karoline selects the dessert flavor she wishes to delete.

6.   Karoline clicks the delete button.

7.   The CMS sends the message of the deletion to the database.

8.   The database receives the message about the deletion.

9.   The database deletes the corresponding dessert flavor record from the related table.

10.   The use case ends when the CMS receives updated data from the database that no longer includes the now deleted dessert flavor.
