Use Case 32: Delete Payment Type
Sequence Diagram

Main Flow:

1. Karoline navigates to her site

2. Karoline logs into her account.

3. Karoline accesses the admin section of her website (i.e. the Content Management System (CMS)).

4. Karoline accesses the list of existing payment type options using the CMS.

5. Karoline selects the payment type she wishes to delete.

6. Karoline clicks the delete button.

7. The CMS sends the message of deletion to the database.

8. The database receives the message of payment type deletion.

9. The database deletes the selected payment type.

10. The use case ends when the CMS receives data from the database that reflects the deletion of the payment type option.
